CAIRO METRO

FACTS

Cairo Metro is the first metro network in Africa and has been operational since 1990. The network consists of three lines .

Cairo Metro is a rapid electric railway network for transporting people serving the governorates of Greater Cairo. Three surface and tunnel lines are currently operating in this network, and an additional fourth line is being constructed

It was opened in 1987 as Line 1 from Helwan to Ramses Square with a length of 29 kilometres As of 2013, the metro carried nearly 4 million passengers per day. As of 15 May 2024, the Cairo Metro has 84 stations
